

eHealth WORKSHOP 2009

19 February 2009

eHealth WORKSHOP 2009

Under the frame of the Czech EU presidency an international eHealth workshop 2009 will take place in Prague, Prague Castle, on February 19th 2009.

The conference is organised jointly by the Technology Centre of the Academy of Sciences and the Czech National Forum for eHealth and aims to provide a discussion platform for eHealth in Framework programmes in two main topics:

- eHealth – detection, diagnosis and monitoring
- eHealth and enhancing life quality of ageing population with different disfunctions and disorders

The organizing committee hopes to bring together experts of national and international R&D programmes, researchers, policy makers, analysts and to facilitate exchange of information, ideas and experience.

More information about eHealth workshop can be found on www.tc.cz
